

# ENCAP SPOTTER

## Encapsulating Spotter

**SPOTTER**

**Encap Spotter** brings encapsulating chemistry into a spot remover that will easily remove a wide variety of common spots and stains. Encapsulating any remaining soils into a crystallized form when it dries, allowing it to be easily removed with subsequent vacuuming. The encapsulating polymer also resists soiling long after the spot has been removed.

- **Water based spotter**
- **Works on a wide variety of spots and stains**
- **Cuts through grease and oils**
- **Dries to a crystal form**
- **Continues to clean with subsequent vacuuming**
- **For use on synthetic and natural wet cleanable carpets and fabrics**
- **Meets specifications for use on stain resistant carpets**
- **Available in: 1 L (34 US oz) or 4 L (1.06 US gal)**

### DIRECTIONS FOR USE:

Pretest in an inconspicuous location for color fastness and fibre stability

**Do not dilute, use full strength.** Apply Encap Spotter directly to the stained area. Allow dwell time of one to two minutes. Using a spotting brush,

tamp the affected area to agitate. Blot with clean white towel working from the outside-in to prevent spreading of the spot or stain. Continue blotting until there is no more transfer of spot or stain onto the white towel. Encap Spotter does not require rinsing

**Diluted pH: 8.7**

**Dilution Ratio: Ready to use**
