## **OWNER'S MANUAL**

Congratulations on your selection of a new E1000 soil extractor built in Canada by "Esteam Cleaning Systems." Our goal has been to produce the best high performance line of carpet cleaning equipment on the market today. Reading your owners manual will help to achieve maximum benefit from your purchase.

## INTRODUCTION

Be it a small residential job or a large commercial contract, Esteam Cleaning Systems industrial carpet cleaning extractors are right for your needs. The E1000 Extractors deliver the ultimate in power, capacity, durability, and performance. The 100PSI Models are a light weight portable electronic truckmount, and is one of the most powerful soil extractors on the market.

Only the highest quality components go into our equipment, to deliver you strength and reliability in a long life high performance machine. All Esteam Cleaning Systems equipment housings are made of high impact, unbreakable polyethylene.

The E1000 incorporates a dual 2 stage vacuum producing 150 inches of water lift or 185 inches of water lift with optional dual 3 stage vacuum.

## SPECIFICATIONS E1000 (110v &220v)

<b><i>WEIGHT</i></b>	110 lbs (49.8 kgs)	115 lbs (52 kgs)	115 lbs (52 kgs)

## **MAINTENANCE**

### **DAILY:**

- Clean high water level float screen inside the recovery tank.
- Ensure high level float ball is working properly.
- Rinse out recovery tank after use.
- Clean dirt and obstructions from the (recovery tank) drain valve rubber gaskets to prevent premature wear.
- Rinse out pump with clean water at conclusion of work day.
- Clean poly housing with mild soap and water.

### **MONTHLY:**

- Clean air inlet and check exhaust port.
- Check 1 ½ dump valve seal.

### **YEARLY:**

- We recommend that your unit be inspected by a qualified service technician once a year.

### **PREVENTATIVE MAINTENANCE:**

- Never store this unit in a place where there is a possibility of the temperature dropping below 0°C (32°F).

## **SAFETY INFORMATION**

1. Prior to inspection or repair of this machine, disconnect all electrical cords rendering the machine powerless. Failure to do so could result in serious or fatal injury.
2. Inspect unit daily for worn or damaged components. E.g. frayed cord, loose plug, or a plug with missing ground pin, etc.
3. This unit should only be operated when in an upright position on a level surface.
4. Do not operate unit unless it is properly grounded in a 3 pin grounded outlets. Never bend or remove ground pin from plugs.
5. Ensure filters and screens are free from lint or dirt.
6. Do not run unit if vacuum motor or pump are wet. Allow sufficient time for motor to dry before plugging unit in.
7. Do not use solvent based cleaning products in this extractor.

8. Keep air inlets and exhaust ports free from obstructions. Blocked air inlets or exhaust ports can cause the unit to overheat.
9. Do not use solution or recovery tanks for storing hoses, cords or accessories.
10. When using electrical equipment around water it is important to wear rubber soled shoes and keep machine properly grounded at all times. Failure to do so could result in a fatal electric shock.

## **OPERATING INSTRUCTIONS**

1. Insert electrical cords into 3 pin grounded outlets. Two cord machines are equipped with a circuit indicator located above the Switch Plate. The electrical cords must be plugged into separate circuits. When this is achieved the green light will illuminate showing the machine is ready for operation.
2. We recommend the use of a Esteam Liquid Defoamer, to prevent the machine from prematurely shutting off due to excess foam in the recovery tank. Turn on vacuum and pour approximately  $\frac{1}{4}$  cup of Esteam Liquid Defoamer into the end of the vacuum hose.
3. 100 PSI pump priming instructions: **Using Primer Quick Connect**
  - Fill fresh water tank
  - Attach vacuum and solution hose to machine
  - Attach primer quick connect to end of solution hose
  - Place solution hose with primer quick connect into open end of vacuum hose and hold
  - turn vacuum and pump switches on
  - Once a continuous flow of water is entering the vacuum hose, this indicates pump is primed
  - Turn off vacuum and pump switches and disconnect primer quick connect
  - Connect solution hose and vacuum hose to carpet wand
  - Turn vacuum and pump switches on
  - Machine is ready to use.

## **TO USE YOUR E1000 HEATER:**

- A. Hook the wand solution hose to the quick connect of your machine.
- B. Plug the heater power cord into a wall that is on a separate circuit form the other cord.
- C. Turn the heater switch on.
- D. When the red light goes out, solution is heated and ready to use.

## OPERATING INSTRUCTIONS (CONTINUED)

**WARNING:** If your heater does not work DO NOT attempt to repair it yourself, call your distributor for repair procedures. Using solvents in heaters can be hazardous and will void your warranty. Allowing heaters to freeze will crack the heater cartridge and will also void your warranty.

**DANGER:** No solvents of any type may be used in this system at any time. The use of solvents is extremely hazardous resulting in possible fire and/or explosion.

4. Connect vacuum and solution hoses to the carpet cleaning wand.
5. Proceed to clean carpets.
6. When the recovery tank becomes full, vacuum will automatically stop extracting. When vacuum stops extracting it will make a distinctive high pitched noise as all the air flow will be cut off. At this time switch unit off. Drain the recovery tank by pulling up on drain valve on front of machine.

**NOTE:** Ensure that the high water level float screen inside the recovery tank is free from any obstructions. Be sure to close drain valve before resuming cleaning.

7. To empty solution tank remove vacuum hose from wand. Turn on vacuum and extract solution from solution tank into recovery tank, then drain recovery tank.

**NOTE:** Do not completely submerge end of vacuum hose into solution. Allow some air to enter end of vacuum hose with liquid.

8. When the job is completed empty and rinse out the solution and recovery tanks. Allow vacuum to run for 3 to 5 minutes. This will eliminate all moisture from vacuum assuring long vacuum life.

**WARNING:** When using electrical equipment around water it is important to wear rubber soled shoes and keep machine properly grounded at all times. Failure to do so could result in electric shock.

# TROUBLE SHOOTING

**WARNING:** Prior to inspection or repair of this machine, disconnect all electrical cords rendering the machine powerless. Failure to do so could result in serious or fatal injury.

PROBLEM	CAUSE	SOLUTION
1. Entire unit will not operate	1. Unit not plugged in	1. Connect unit to 3 pin grounded outlets
	2. Loose wiring	2. See dealer
2. Pump will not run	1. Switch not turned on	1. Turn on switch
	2. Broken switch	2. See dealer
	3. Loose wiring	3. See dealer
	4. Pump motor defective	4. See dealer
3. Vacuum will not run	1. Switch not turned on	1. Turn on switch
	2. Broken switch	2. See dealer
	3. Loose wiring	3. See dealer
	4. Blocked rotor	4. See dealer
4. Pump runs but does not pump solution	1. Out of solution	1. Fill solution
	2. Pump inlet screen plugged	2. Clean inlet screen
	3. Pump was not properly Primed	3. Prime pump using priming hose
	4. Kink in solution hose	4. Remove kink
	5. Plugged jet or quick connect	5. Remove blockage
	6. Internal (inside machine) or external solution line damaged and leaking	6. See dealer

## TROUBLE SHOOTING (CONTINUED)

PROBLEM	CAUSE	SOLUTION
---------	-------	----------

5. Pump runs but has loss pressure	1. Partial kink in solution hose	1. Remove kink
	2. Partial blockage in solution hose	2. Remove blockage
	3. Jet orifice opening on cleaning wand is too large	3. Total jet opening for 100 PSI pump should be .06 or .08. Heat option should be .03
	4. Internal pump components wearing out	4. See dealer
6. Vacuum operates but has poor or no suction	1. Recovery tank full	1. Drain recovery tank
	2. Vacuum hose plugged	2. Locate and remove blockage
	3. Wand plugged	3. Locate and remove blockage
	4. Exhaust port blocked	4. Locate and remove blockage
	5. High level float stuck in off position	5. Turn vacuum off and tap top of float screen cage
	6. Front drain valve left open after draining recovery tank	6. Close recovery tank drain valve on front of machine
7. Vacuum prematurely stops extracting	1. Excess foam in recovery tank	1. Add defoamer to recovery tank
	2. Lint or dirt on automatic shut off float screen	2. Clean auto shut off float screen
	3. Defective float ball	3. Replace float screen cage
8. Machine spits water out of exhaust port	1. High level float not working properly	1. Check auto shut off float cage and ball for proper operation
9. Machine blowing excessive amounts of water out of exhaust ports	1. Damaged (leaking) recovery tank fittings	1. Immediately shut unit down. Bring unit to a dealer for service

10. Water accumulating in bottom electrical component area	<ol style="list-style-type: none"> <li>1. Inside solution line leaking</li> <li>2. Pump leaking</li> <li>3. Solution or recovery tank leaking from above</li> </ol>	<ol style="list-style-type: none"> <li>1. Immediately shut unit down. Bring unit to a dealer for service</li> <li>2. Immediately shut unit down. Bring unit to a dealer for service</li> <li>3. Immediately shut unit down. Bring to a dealer for service</li> </ol>
11. Heater won't work.	<ol style="list-style-type: none"> <li>1. Heater cord not plugged in.</li> <li>2. Faulty Thermostat or Thermo cut-out</li> </ol>	<p>Connect cord to 3 Pin (Separate) outlet</p> <p>See dealer</p>
12. Water not hot enough	<ol style="list-style-type: none"> <li>1. Check Jet size on wand or upholstery tool. Do not exceed .03 orifice size for maximum heat transfer</li> <li>2. Do not use cold water in solution tank. Must use hot tap water for maximum heat transfer</li> </ol>

## WARRANTY REGISTRATION / DELIVERY ACCEPTANCE

This form must be completed and returned to Esteam Cleaning Systems to activate your warranty.

Esteam would like to take this opportunity to point out a few operating and safety recommendations for your consideration.

\* All units cords have a ground plug pin for your safety, never remove or operate any equipment if the ground pin on the plug has been removed.

\* Defoamer is to be used in all machines. Improper use of chemicals will void warranty. Drycleaning solvents cannot be used in any Esteam extractors.

\* Do not over fill recovery tanks as this will damage the vacuum motors. Vacuum motors showing any signs of moisture contamination will not be covered under warranty.

# **ESTEAM® CLEANING SYSTEMS**

## **E-Series Extractor Warranty**

### **E1700, E1000, E600, E250**

**NOTICE: REVIEW THIS WARRANTY CAREFULLY AS THIS DOCUMENT CONTAINS LIMITATIONS AND EXCLUSIONS.**

#### **PART I:**

Esteam Manufacturing Ltd. (hereinafter referred to as "Esteam") warrants each new E-Series Extractor, subject to the limitations as defined in the specific details of its warranty coverage defined below.

#### **LIMITED LIFETIME HOUSING WARRANTY COVERAGE:**

Esteam warrants the E-Series Polyethylene Machine Housing Unit to be free from defects in material and workmanship (including cracking, leaking or deterioration) for the life of the unit, expressly subject to the limitations stated herein.

In the event a defect occurs in a E-Series Housing Unit within five years of receipt by the original customer, Esteam will, if satisfied on its examination that the failure is due to defective material or workmanship, repair or replace the E-Series Housing Unit, at no cost to the original customer, other than as maybe provided for in this warranty.

In the event a defect occurs in a E-Series Housing Unit subsequent to five years (and thereafter for life) of receipt by the original customer; Esteam will, if satisfied on its examination, that the failure is due to defective material or workmanship, provide to the original customer only, a new Housing Unit, at 50% of the then published retail pricing basis, used by Esteam.

#### **90 DAY LIMITED WARRANTY COVERAGE:**

Esteam warrants all switches, vacuum hoses and solution hoses, heatermate thermostats and thermo cut-outs to be free from defects in material and workmanship, for any defect occurring within 90 days of receipt by the original customer of the E-Series Extractor; and further subject to the limitations stated below. 90 day on labor, subject to Esteam's approval; hourly labor credit is set by Esteam.

#### **12 MONTH WARRANTY COVERAGE:**

Subject to the Limited Lifetime Warranty and the 90 Day Limited Warranty; Esteam warrants all remaining items on the E-Series Extractor to be free from defect in material or workmanship (excluding any labor charges) for a period of 12 months from date of receipt of the unit by the original customer; and further subject to the limitations stated below.

## **PART II - REPLACEMENT PARTS (UNDER WARRANTY)**

Replacement warranty parts will be genuine Esteam parts, or parts of similar kind and quality.

All replacement warranty parts are warranted to be free from defects in materials or workmanship from the date of the original unit purchase for the balance of the original warranty period namely: 90 days, 12 months, or the Lifetime, whichever is applicable; all in accordance with the terms of Part I, of this warranty.

## **PART III - LIMITATIONS ON WARRANTY COVERAGE**

### **WHAT IS NOT COVERED:**

Notwithstanding any other term or covenant of Esteam contained herein, the following provisions shall apply:

- (i) No warranty is provided for any Esteam product which has failed as a result of freezing, fire, misuse, alteration, improper amps or voltage, accidental damage, improper maintenance, unauthorized repairs, alterations, abuse, neglect or operation of a Esteam product not expressly recommended or contemplated by Esteam; and
- (ii) No warranty is provided for mechanical or electrical breakdown caused by scale, hard water buildup, improper use of chemicals or resins, damage due to environmental conditions, and acts of God, or other events beyond the control of Esteam; and
- (iii) No warranty is provided for mechanical or electrical breakdown or failure of an Esteam product resulting from ordinary wear and tear, or the consequences thereof; including but not limited to the gradual reduction of the operating performance of the product. The determination of what is or is not ordinary wear and tear is at the sole discretion of Esteam; and
- (iv) No warranty is provided for damage caused by the failure of non-warranted parts and/or accessories, even if warranted parts are damaged as a result of the failure of a non-warranted part; and
- (v) No warranty is provided for damage resulting from failure by the customer to maintain scheduled maintenance requirements. The Esteam system has many parts which must either be replaced or checked for wear on a regular basis; including but not limited to replacement filters and lubricants. This system requires regular maintenance, service and attention by the customer; and
- (vi) No warranty is provided as to any extra expenses incurred by the customer, including but not limited to economic, incidental, consequential loss or damage (e.g. all labour charges, rental equipment, down time, lodging, commercial or business loss of any nature or kind due to product failure); whether direct or indirect, exemplary or punitive damage or loss, and whether in contract, tort or otherwise; and

- (vii) No warranty is provided as to failure of any cosmetic item or finish, labeling, silk screening, decals, paint, trim or other similar decorative items.
- (viii) Brass, rubber and synthetic rubber parts (e.g. "O" rings, diaphragms, gaskets, seals, grommets) are considered expendable in normal use, and are therefore not included in any warranty by Esteam.

#### **PART IV - EXCLUSION OF LIABILITY**

Esteam makes no warranties or representations, either expressed or implied, oral or written, in fact, or by operation of law, or otherwise, except as expressly stated herein as to the 90 day Limited, 12 month and Lifetime Extended warranties. Esteam, its officers, directors, agents, dealers and its affiliates (and their respective officers, directors, agents and dealers) shall not be liable to the customer nor to any party for any liability, including without limitation, strict liability, liability for loss, injury or damage due directly or indirectly to the use or operation of the Esteam product; consequential, exemplary and/or punitive damage or loss, whether in contract, tort, or otherwise.

#### **PART V - RETURN GUIDELINES**

Defective items must be replaced through a local Esteam Distributor. Replacement parts will be sent via prepaid regular ground service to the distributor. The defective part must be returned F.O.B. factory within 30 days including a letter providing the machine's serial number, date of purchase, material return authorization number, and customer name. If applicable, credit will be issued after the item has been evaluated by Esteam. Failure to comply with return policy will void the warranty on that item.

#### **PART VI - CREDIT POLICY**

All customers purchasing parts through an Esteam distributor must arrange credit directly with that distributor.

#### **PART VII - OUTSIDE SOURCE WARRANTY REPAIRS**

At the sole discretion of Esteam, it may be necessary to perform warranty/repairs at an outside source. An estimate must be submitted to and approved by Esteam prior to work being performed. Failure to do so will result in denial of your warranty claim.

#### **PART VIII - TRANSFERABILITY**

This warranty is not transferable to any subsequent owner.

#### **PART IX - NOTICE - CUSTOMER OBLIGATIONS**

- (i) Your responsibility as a customer includes but is not limited to cleaning, lubricating, seasonal maintenance (e.g. winterizing), replacement of worn parts and all regular scheduled or unscheduled maintenance.

- (ii) Any claim for warranty must be presented to Esteam or its authorized dealer, prior to the expiration of the time limitations specified and not thereafter, otherwise any warranty is void.
- (iii) Notwithstanding the generality of the foregoing customer obligations, Esteam does hereby bring to the attention of the customer, these specific maintenance operating requirements of the E-Series Extractor to validate its warranty:

(a) Chemical Warning:

Any improper use of chemicals shall void any Esteam warranty and thusly exclude any liability by Esteam. No dry cleaning chemical may be used in a E-Series Extractor; - as any such use may result in fire or pump/motor damage. A defoamer solution must be used by customer to limit foaming in the recovery tank.

(b) Vacuum Motors:

Require use of a defoamer. A vacuum motor showing moisture contamination on interior components shall void any warranty by Esteam.

(c) Pumps:

All pumps require daily flushing with clean water after use.

(d) Internal Heatermate:

The internal heater must be flushed with clean water after every use. Any build up of hard water deposits or chemical build up within the internal heater will void any Esteam warranty thusly exclude any liability of Esteam.

The foregoing constitutes Esteam's entire warranty and no other warranty, liability, contingency or responsibility, direct, indirect, consequential or in any other way connected with the sale or operation of Esteam machines or chemical product is expressed or implied.
