Accessories

AQUA REEL TANK

Available in 125 gallon capacity. This space saving design of only 35" in width has a powder coated frame with a rotational molded polyethylene tank. It features a 250' live solution reel and a 250' electric vacuum reel as well as an auto fill.

AQUA-STORAGE FRESH WATER TANK

Available in 120 gallon capacity. Made from marine aluminum with cross ladder baffles for waveless storage, powder coated white finish. Designed with direct feed and auto shut off. Integrated into the tank are storage shelves for 10 - one gallon jugs, 8 - quart size bottles, and 2 Hydro-Force™ jugs.

HYDRO-WELL III FRESH WATER TANK

Available in 100 gallon capacity. Made from heavy duty rotomoulded poly with built in baffles to reduce water movement. Transparent tank allows for water level monitoring. Integrated into the tank are molded in areas for two 5 gallon buckets and five 1 gallon jugs.

EXTERNAL C.A.D.

237-040

The external auto drain will produce a 8 GPM flow rate and is designed with extra large valves that allow debris to pass through without plugging, to keep you working without interruption. Prewired, ready to install.
