

BIO ENZYME DECONTAMINANT

Complete Urine Treatment

This unique formulation will work on almost all urine damage. Extreme cases, usually as a result of months of neglect, can be treated with additional steps.

Available in:

- 3.79 L - Part # 2629-0205

Directions: Shake gallon or mix pails and drums before use as bacteria and enzymes have tendency to settle to the bottom of the container.

Dilute 1 to 4 up to 1 to 8 with lukewarm water in pump or electric sprayer or injection system. If using a truckmount with a Hydro-Force Injection Sprayer, adjust machine to lowest heat setting. For best results, solution must come in contact with carpet, backing, pad, or any other affected area. Odor modification is immediate. Standard dwell time for most situations is only 15-20 minutes. For extreme situations, increase up to 1 hour.

Avoid over-wetting water sensitive surfaces. Clean affected area as normal if needed after treatment.

For best results, flush affected areas thoroughly with Water Claw Injection Tool.

Bio Enzyme Decontaminant may be injected with a syringe at the 1:4 dilution after cleaning to assist with any lingering odors at pad level.

Keep this product out of reach of children. Read the Material Safety Data Sheet and Product Label before using. Take the necessary precautions dictated by the label to ensure that your health and that of your customers' is protected.
